ABOUT ME

Results-driven software engineer with five years of experience designing, developing, and implementing software solutions. Proficient in C#, C++, C, Python, and JavaScript; well-versed in ASP.NET, HTML, and CSS. Adept at collaborative teamwork, delivering high-quality code, and innovative problem-solving, and seeking to leverage my expertise to contribute to Education Horizons' mission of transforming the educational experience.

WORK EXPERIENCE

INFOSYS
Kathmandu
Feb 2018 - Present

Software Developer

- Collaborated seamlessly with a cross-functional team, playing a pivotal role in developing a dynamic web application using the ASP.NET framework, C#, C, C++, JavaScript, and Python.
- Developed and maintained SQL queries to efficiently handle extensive datasets, contributing significantly to data-driven decision-making.
- Engaged in daily stand-up meetings, facilitating transparent communication on project progress and proactively addressing challenges with practical solutions.
- Applied troubleshooting skills to identify and resolve bugs, upholding the application's stability and optimal functionality.
- Conducted comprehensive code reviews, optimizing code for performance and ensuring adherence to coding standards.
- Utilised Git for effective version control and collaboration, maintaining a smooth development workflow.

SOMERVILLE COMMUNITY SERVICES
Wagaman
Mar 2024 - Present

Workforce and Roster Coordinator

- Developed rosters for all staff, working collaboratively and in partnership with a range of stakeholders to optimise the best-fit workforce for customers.
- Developed rosters using the human force app as well as the client management system (CMS) and Microsoft Office suites of programs, for example, Outlook, Word, and Excel.
- Ensuring compliance with the National Quality and Safeguarding Framework (NQSF) and organisational policies and procedures.
- Supporting a workplace culture of teamwork, support, and participant service innovation.

CARPENTARIA
Tiwi
Jan 2020 - Mar 2022

IT Support Officer

- Proactively respond to inquiries regarding hardware and software issues, ensuring swift resolution and maintaining high customer satisfaction.
- Executed tasks, including installation, support, maintenance, and administration, to deliver exceptional customer support services.
- Expertly manage Microsoft Office 365 applications, ensuring seamless integration and optimisation for enhanced productivity.
- Took ownership of maintaining and enforcing IT policies and procedures within the company, contributing to a secure and efficient technology environment.
- Designed and maintained the company website, ensuring a user-friendly and visually appealing online presence.

EDUCATION

CHARLES DARWIN UNIVERSITY
Darwin

Bachelor of Software Engineering Honours

- Object-Oriented Programming
- Web Development
- Software Design and Architecture
- SQL Database Management
- Software Testing and Quality Assurance

MERAGE GLOBAL INSTITUTE OF TECHNOLOGY
Sydney

Diploma in Information Technology

- Dynamic Host Configuration Protocol (DHCP)
- Domain Name System (DNS)
- Desktop Support, Troubleshooting, and Active Directory
